INTRODUCTION

The Fall 1985 Salary Survey for the Illinois Public Community Colleges was essentially the same as the survey conducted during the fall of 1984. The survey requests faculty salary data which are based on actual contracts, salaries from faculty salary schedules, part-time faculty salary rates, overload faculty salary rates, total fiscal year (W-2 type) faculty salaries, administrative salaries, other professional salaries, average faculty load information, salaries for positions similar to Universities Civil Service classifications, and salaries of select administrators.

Data from three districts were not available at the time this report was written because of contract negotiations; therefore, care should be exercised in making comparisons of last year's average data and this year's average data.

Section I

FISCAL YEAR 1986 CONTRACTUAL BASE SALARIES FOR FULL-TIME FACULTY
AT ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 1 summarizes the ranges of salaries for full-time faculty on 9-month contracts for Fiscal Year 1986.

Table 2 identifies the lowest, average, highest, and median academic year contractual base salaries of full-time faculty with 9-month contracts at each community college in Illinois reporting data. Table 3 provides the same information for full-time faculty with 12-month contracts.

The lowest salaries represent the lowest contractual base salary actually paid to a full-time faculty member at each of the community college districts and may be different from salary schedule salaries which are reported in Tables 7 and 8.

The high salaries represent the highest contractual base salary actually paid to full-time teaching faculty members for an academic year at each of the colleges reporting data. The mean salaries represent the weighted average of all full-time teaching faculty salaries at each community college district. Statewide average salary data reported throughout this report are weighted average salary data. The median salaries reported are those which are the middle salary at each college. The median salary is the most appropriate measure of central tendencies for salary data within a given college since it is not affected by extreme high or low salaries; however, it is not as meaningful when reporting statewide composite median salary data.

TOTAL FISCAL YEAR 1985 FULL-TIME FACULTY SALARIES (W-2 TYPE)
AT ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 4 compares the contractual base salaries reported for Fiscal Year 1985 and the total salaries paid to full-time faculty in Fiscal Year 1985. The Fiscal Year 1985 W-2 type salaries include all overloads and compensation for extra assignments paid to full-time faculty from July 1, 1984 to June 30, 1985. The average additional dollar amounts range from \$183 to \$9,449 above the Fiscal Year 1985 average contractual base salary.

The state average total fiscal year salary paid to faculty in Fiscal Year 1985 for those districts reporting data is \$3,345 more than the state average academic year contractual salary for full-time teaching faculty in Fiscal Year 1985. An analysis of total faculty salary is important because some community colleges make an extra effort to ensure that the full-time faculty have first chance at overload classes and extra assignments prior to hiring part-time faculty.

Section III

FISCAL YEAR 1986 PART-TIME FACULTY SALARY RATES AND FULL-TIME FACULTY OVERLOAD AND SUMMER TERM RATES AT ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 5 summarizes part-time faculty and full-time faculty overload and summer term salary rates in Illinois public community colleges during Fiscal Year 1986.

Table 6 presents the average part-time faculty salary rates per semester credit hour and full-time faculty overload rates by each community college district. The first column shows the part-time faculty rate per course credit hour. This rate is the amount paid to part-time teachers who might, for example, teach a night class at an extension center. The second column shows the overload rate for full-time faculty for the academic year. This rate represents the amount paid to full-time faculty for teaching courses above the full-time load during the academic year. Often this is compensation for teaching an extra night class or for teaching an additional class in the daytime. The third column reflects the amount received by full-time faculty members for teaching a class during the summer term. Community colleges have many different bases for determining part-time faculty rates as well as overload rates. Some colleges pay a flat rate per course or a flat rate per term, while other colleges base their rates on contact hours or credit hours; still others pay an hourly rate. In addition, many of the colleges' overload rates for full-time faculty are based on a percentage of that faculty member's actual salary. These various methods of payment were converted to the average rate per semester credit hour so that comparable data could be obtained for each college. It must be realized, however, that much of the data reported had to be averaged, and conversions were made for typical cases at each college.

INSTITUTIONAL POLICIES RELATED TO FACULTY SALARIES AND FACULTY CONTRACTS
AT ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 9 summarizes the institutional policies related to faculty salaries and faculty contracts at each public community college district in Illinois. These policies often have a considerable impact on the salaries presented elsewhere in this report. The average weekly class contact hour per full-time instructional faculty, for example, has a bearing on the number of faculty that an institution must have to meet its needs. The length of a full-time academic year contract also has a bearing on academic year salary for full-time faculty.

Table 10 shows these policies for each college. Of the 35 community college districts in Illinois reporting, twelve have professional rank, although not all of these use rank as a criteria for salary determinations. Thirty-one public community college districts reported that they have master contracts with the faculty.

In addition to the class contact hours, office hours, and academic advising hours, faculty members spend much time in grading papers, preparing class presentations, working on curriculum development, and serving on college committees. Accordingly, although the state average number of required weekly hours for the faculty does not total 40 hours, most faculty members spend over 40 hours per week on their full-time assignments.

FISCAL YEAR 1986 CONTRACTUAL BASE SALARIES FOR OTHER PROFESSIONAL STAFF
AT ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 11 summarizes the range of Fiscal Year 1986 salaries for other professional staff in Illinois public community colleges.

Tables 12 and 13 identify the number of staff and the lowest, average, highest, and median contractual base salaries paid to full-time other professionals (9-month and 12-month) at each community college in Illinois. Other professional staff include counselors, librarians, and instructional support staff such as curriculum coordinators. Even though some colleges may classify some of these personnel types as non-teaching faculty, they were asked to report them in this category.

The lowest and highest salaries represent the lowest and highest base salaries actually paid to full-time other professionals at each of the community colleges. The average salaries represent the weighted average of all full-time other professional salaries at each college. The median salaries represent the salary received by the person in the middle of the range at each college. The weighted state average salary of other professional staff with 9-month contracts was \$31,053. For other professional staff with 12-month contracts, the weighted state average salary was \$22,968.

SALARIES PAID TO SELECT ADMINISTRATORS AT
ILLINOIS PUBLIC COMMUNITY COLLEGES DURING FISCAL YEAR 1986

A summary of the Fiscal Year 1986 contractual base salaries paid to select administrators in Illinois public community colleges appears in Table 16.

Table 17 indicates the contractual base salaries paid to select administrators in each of the public community colleges in Illinois during Fiscal Year 1986. The chief executive officer of the district is either a chancellor or a president and has overall administrative responsibilities for the district. The chief campus administrator reports directly to the chief executive officer of the district and has overall administrative responsibility for the college. Examples of chief campus administrators are the presidents or provosts at multi-campus institutions and executive vice presidents for internal affairs at single campus colleges. Due to the various administrative organizations which exist at the colleges, a particular position may not exist. An analysis of the entire administrative structure must be made before making comparisons between similar positions at two different colleges. Another item for consideration when making comparisons between colleges is the number of years an administrator has been in the position.

SUMMARY OF FISCAL YEAR 1986 MONTHLY CLASSIFIED STAFF SALARIES
AT ILLINOIS PUBLIC COMMUNITY COLLEGES

Table 18 summarizes Illinois community college earnings for specific classified staff. The number of employees in Column 1 is the total of all employees for the respective position titles which were reported by Illinois community colleges. The average Fiscal Year 1986 salary in Column 3 is the weighted average of all monthly salaries reported for each classification. The high and low salaries are those reported by the colleges for each specific type of classification.

Table 19 compares monthly mean salaries of comparable university civil service positions and classified community college positions. Overall, community college classified staff salaries are 1.5 percent lower than classified salaries at universities. However, many variables, such as tenure in the positions and exact job responsibilities, are unknown, which makes valid comparisons difficult.
